Nothing

Good

Regular classes

Best

No suggestion

Use more practical methods

No comments

\*Teachers should use more of ICT technology while teaching

\*More of industrial should be there for the students

\* teachers should encourage more over the students in all situation

Good

Everything is good

Classes

Large amount of use of ict tools

General knowledge is the most important factor in today's world! So ,knowing them with their perspective career subjects. Give them overall knowledge about their field!

1)regular lectures time to time .2) college own uniform. 3) college preliminary exams

1. Teachers have to take lectures more seriously.

2.They have to make compulsory to attend lecture for all students.

3.They can arrange group projects also tu build ability of every student.

Everything is good in my college .

1:teaching improvement

2:increase in co-curriculum activities

3:starting of events

Students involvement

interact with students

Practical knowledge should be given to students.

nothing to change all is going good

Telling some interesting facts, e learning and teaching freely

Use examples freely. ...

Use a variety of student-active teaching activities. ...

Set realistic performance goals and help students achieve them by encouraging them to set their own reasonable goals.

Need proper method to solve the problems

Instead of only teaching teachers also has to participate with students in extracurricular activities so that the relation between students and teachers should be more friendly

Use of ICT, Practical oriented education, students\_teacher relationship

All set

No I am not understanding anything

Cs students must be provided with pc , students should attend regular class , students should give test every month

They should take test regularly

1. Punctuality
2. Regularity

There should be regularly class everyday

1. Teachers must give priority to students self-study...

1. teachers staff, please recheck it.
2. mannage time table and strength of students in one class
3. One hobby club is required to improve the hidden talent and for personality development of students.

1. The students who have opted for computer science should be given their personal computers.
2. Students who have missed there practicals due some health issues should be given permission to complete their practicals.
3. Teachers should use ICT methods to explain there topics more clearly.

Conducting Regular classes  
Quality education  
Good teaching skills

I think teachers should encourage students for extracurricular activities. Their method of teaching should be interesting. They should ask the students to solve assignments and should discuss some of them in class so as to let the students know how to write their answers. And the most important one, they really need to take seminars designed for students to talk about the topics in the course so that the students have to take an active part in the debate. Thank you for asking for our feedback.

Very good

Teaching should be interesting,with new techniques.. Teachers should interact with students personally... Students are missing extracurricular activities...

As in question no. 5 & 6 that teacher use moderately the ICT is best because mathematics can be learn more better only on black board instead of ICT tool. So I think it is better to use black board as my institute teacher uses.

I do not want to suggest anything. Teaching is very good.

- 1) The syllabus must be covered 100%
- 2) there should be projector to increase learning experience

give us free Internet

They should use more ICT tools

Very poor

Yes I agree with that

1. Teacher should look after each and every student.
2. Encourage every student for extra curricular activities/participation.

lectures should be conducted on regular basis, a little attention should be given towards student seminars. But in all lecturers are co operative in every way..

Sessional required. .otherwise overall teaching is good

I have observed that all the teachers take hard work to solve difficulties of the students. They share good knowledge with students. Also they mentor every time.

Need to use ict method

Assess you student's understanding before and after you present a lesson.provide a formative assessment before you.teach a unit to measure what students know about the topic.

Learning experience in my institution is good

Regular Classes, other cultural program and the activities ,

Course should be completed faster

To improve the teaching skill

Clear the doubts

No

There is no need for the suggestions because there is no problem in teaching

Class should be regular

Keep attendance compulsory

Some subject teachers have not taken the class in full 3 yrs.  
They should behave properly.  
Improved teachers should be there...old teachers dont know how to teach now

Teachers learning is best no changes

- 1) Teachers should behave friendly with students.
- 2) The extra study material must be provided to students by the Institute.
- 3) Students must attend the classes regularly to improve their knowledge.

1.) ICT methodologies should be used at greater range.

- 1)Completion of overall whole syllabus should be done before a month of exams.
- 2)Teachers should use ICT tools like LCD projector etc. For teaching

(1)give the assignment, (2)take test every week, (3)give the online assignment and mcq questions.

co and extracurricular activities should be promoted

Give the additional information and carrier guidance

Always give examples while teaching for better understanding. Biochemistry branch teachers explains so nicely. We need regular classes but some teachers doesn't take any single class. Every teacher have to take classes on regular basis. Overall the teachers are very good but their method of teaching is slightly not good.Institute and teachers are so good. And yes staff of office sometimes misbehave that have to be improve.

The teachers should interact with students.  
They must take the class regularly.  
They should take some extra activities so students get to learn from it.

- 1)Take class test every week
- 2) Take online McQ test which helps in learning more

1. Teachers should take regular lecture.
2. Models, Instruments should be used when teaching.
3. After teaching and should take a test.

- 1.
- 2.
- 3.

Teachers should interact with students while teaching, should ask if there points are clear or not. And should give advice for further studies related to our field.

- 1-friendly environment for students from teachers to interactive wid them freely regarding their problems.
- 2-provide best notes for studying

1. Use of ICTs should be more nd improved.
2. More proper nd printed or handwritten notes should be provided .

- 1)Provide usefull notes of all subject.
- 2)Use ICT methods.
- 3)In end of the week take workshop.

Use of additional teaching aids  
Providing knowledge apart from bookish so that to help learn concept properly and thoroughly

Visual classes give more impact .....

Teachers take new techniques to teach us..and our some practical lab is very poor coz instrument is very poor and old..so is must we will have a new instruments.

Classes should be held regularly  
Students should be given full internal marks if his work is fair  
And Don't judge students by their face

- 1.use always ICT tools
- 2.take class test after completion of each unit.

Conduct more workshops

- 1)More use of presentations in teaching
- 2)More use of practical approach
- 3)Awareness about further opportunities to some more extent

- 1.more use of ICT methods
2. Take a unit test in every week
- 3.provide the proper notes.

Increase the frequency of educational tour

Should include more ppt teaching  
Teaching is very good

teaching from refrence books would be appropriate

Teacher staff is very friendly

- 1) all classes should be taken in morning.
- 2) Students Should be takrn to field work regularly.
- 3) teachers should interact friendly with students.

Extra curricular activity should be taken  
Group decision should be done to encourage students

1. Need weekly assignments 2. need feild visit 3. Need to have projector in classroom itself so no need to change rooms

Campus round should be conducted
