DEEP 2016

From the Editor's Desk.....

Life is a constant endeavour to accept challenges, face hurdles and concentrate one's energies and resources towards the fulfillment of the dreams one cherishes. "True enjoyment comes from activity of the mind and exercise of the body" is a famous quote by Humboldt. The activity of the mind and the exercise of the body call for a resolve to keep oneself engrossed in a task to be accomplished in order to achieve a definite goal. A determined mind never gives in to difficulties and pressure. In the words of Ernest Hemingway - "Courage is grace under pressure"

It is our mission at DACN to make the students imbibe and inculcate such values which will make them strong individuals, future citizens with character and integrity, thus leading to all-round holistic development. This issue of the college magazine too stands testimony to the fact that all the Departments, Cells, Forums and Associations have left no stone unturned to provide academic excellence as well as platforms and avenues for developing innate talent, innovation and creativity among our students. It is a matter of great pride and honour for the Deep Editorial Team and our college that the Deep 2014-15 issue won the 2nd prize at the University Level Inter-Collegiate Magazine Competition. I would like to express my deep sense of gratitude to all the members of the staff and students for their in-puts in this issue.
