The Coordinator  
Center for Sericulture and Biological Pest Management Research  
RTM Nagpur University  
Ambavihar, Nagpur

**Subject: Request for permission to visit the center**

Dear Sir,

In view of the earlier personal discussion, we would like to request to kindly permit our B Sc students to visit your center for sericulture on August 30, 2018 at 12 noon in the process of updating their knowledge in applied Zoology as a part of college Zoological Society Activities.

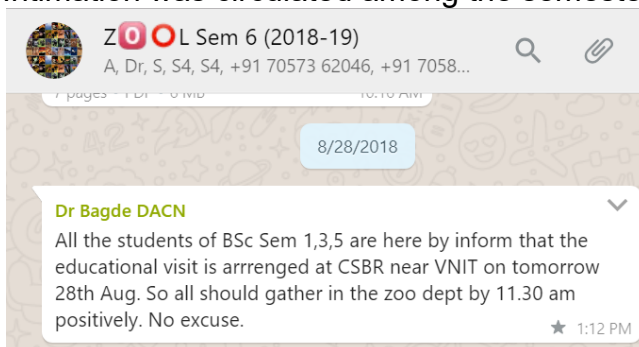

We are thankful and seek your permission in this regard.

With warm regards,

Sincerely yours

  
Dr. P. C. Pawar  
PRINCIPAL  
DR. AMBEDKAR COLLEGE  
NAGPUR

Intimation was circulated among the semester wise groups on social media

## EDUCATIONAL VISIT     AUGUST 10, 2018

Students of BSc Sem I, III & V of Dr. Ambedkar college visited the Center for Sericulture & Biological Pest Management Research (CSBR) RTMNU Nagpur on 30<sup>th</sup> August. Dr. Rathod director delivered a practical scientific lecture on '**life cycle of silk worm**'. He explained the types of silk worms, uses, importance of sericulture, market values, scopes in research importance in textiles and beneficial to farmers as side cash crop. It was hands on training like workshop.

## GLIMPSES

Clockwise: Director Dr Rathod giving welcome address to the students; Dr Wazalwar Scientist CSBR enlightening about the silkworm and rearing; Center Instructor demonstrating laboratory procedures; and all students visited in front of the center.
