

NOTICE of the PROGRAM (Students' Group Discussions)

Specialty Regular Feature of Department of Zoology

Students' Group Discussions September 25, 2019

Students usually participate in the group discussions, once the unit or course of the session is over to attain the better grip over the topics and to understand them more vividly, taught in the class, during regular periods in the end of the session. This session third semester students participated in form of four groups on the topics on Genetics after the completion of all topics. Discussion supervised and conducted by Dr DVNS Suresh
