

**STUDENTS' HANDS-ON WORKSHOP
(MOLECULAR INSTRUMENTATION AND TECHNIQUES AT UG LEVEL)**

April 13, 2022

The students of Department of Zoology visited the Biotechnology Lab DACN as to know about the instrumentation used in the modern biotechnological labs for academics and research that is a part of their syllabus of Sem VI. and Sem IV students were also included for the workshop.

Dr Hirapure took the whole explanation and demonstration of the workshop along with his Students who are doing dissertation under his able guidance n supervision.
