GGC PTA
 While working with various CA/ Finance firm on Pan India basis, GGC has realised that there exists huge gap for quality manpower. The two major issues being faced currently is lack of articles/ interns in the firm which leads to increase in work load of key personnel of organisation and payroll cost as well. On the other hand, if an article joins major firm and cost gets invested in training them thereby creating opportunity loss.

So GGC PTA has come up with online training module designed by practising CAs of India having more than 12 years of industrial experience to provide virtual training to articles which is accessible and affordable for all.

GGC Practical Training Academy is a game-changer for students and young professionals wanting to build a career in the finance management field. It is a thoroughly curated 45 Day course to prepare a student from any academic background into an employable finance professional.
