## Report

On September 23, 2021, Dr. Ambedkar College, Deekshabhoomi, Nagpur, Department of Commerce, organized a webinar on "Career Guidance". Webinar started with the brief introduction of speaker, Dr. C.S. Akhil Ramteke. According to the speaker, Commerce is an important backbone of any economy. Commerce allows us to improve ourselves for various fields like accounting, finance, banking, auditing and taxation.

One can work between corporate finance and stock market as well as internal finance. The growing Indian economy is opening huge opportunities in commerce, especially in areas such as accountancy, business administration, e-commerce, taxation and international economics. Also, liberalization has opened the Indian economy to the capital market for foreign investors as well as domestic investors through FDI and FII. The massive inflow of capital into the capital market has created many employment opportunities for the people in the country. This helps in boosting the economy with technological know-how of latest advancements in the field

About 58 students participated in the webinar. The session proved to be a great success and received positive response which benefited the students and they stated that they wish to attend more such sessions in the future.
