INAUGURAL FUNCTION

TRAINING PROGRAMME ON APPLICATION OF INFORMATION AND COMMUNICATION TECHNOLOGY IN ACCOUNTING FINANCE AND TAXATION

The Department of Commerce, Dr. Ambedkar College, Deekshabhoomi, Nagpur in Association with Nagpur Branch of Institute of Chartered Accountants of India has organized 06 days (30 Clock Hrs.) Training Programme on APPLICATION OF INFORMATION AND COMMUNICATION TECHNOLOGY IN ACCOUNTING FINANCE AND TAXATION. The training programme is a part of Curriculum Enrichment Programme as per the new guidelines by NAAC, Bengaluru. The participants for this training programme are from the field of Commerce and Management (UG & PG). The training programme has received an overwhelming response.

CA Swapnil Agrawal, Past Chairman and Managing Committee Member of ICAI Nagpur was the Chief Guest for the Inaugural Function of the programme on 12 Feb 2019.

In his address he focused on how different businesses have changed functioning due to development in the ICT tools all over the world. In the present, era no business can function without use of Information technology and therefore it has become indispensable. He also stressed that, students of commerce and management should update themselves with the latest technology coming into this field.

Dr. P.C. Pawar (Principal, DACN) presided over the function. CA Kunal Bhutada, CA Trupti Bhattad and CS Akhil Ramteke have been invited as Resource Persons for the training programme.

All the faculty members of Department of Commerce including Dr. P. M. Siriya-Vice Principal and Head, Department of Commerce, Dr. Varsha Panbude and Prof. Nikhil Narlawar were present.

PRESS NOTE

VALEDICTORY FUNCTION

**SIX DAYS (30 HRS) TRAINING PROGRAMME ON
APPLICATION OF ICT IN ACCOUNTING, FINANCE AND TAXATION (MS-EXCEL)**

**(Curriculum Enrichment Programme as per National Assessment and Accreditation Council,
Bengaluru (NAAC))**

The Department of Commerce, Dr. Ambedkar College, Deekshabhoomi, Nagpur in Association with Nagpur Branch of the Institute of Chartered Accountants of India organized 06 days (30 Clock Hrs.) Training Programme on APPLICATION OF INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) IN ACCOUNTING, FINANCE AND TAXATION. The training programme was a part of Curriculum Enrichment Programme as per the new guidelines by NAAC, Bengaluru. The participants for this training programme were students from the field of Commerce and Management (UG & PG) of different Colleges and Management Institutions of Nagpur City. The training programme has received an overwhelming response and the total numbers of student participants were 42 and majority of them pursuing MBA and M.Com.

The valedictory and Certificate distribution function was held on 18th February 2019 in Dr. Ambedkar College. The Chief Guest was **Dr. Anant Deshmukh**, Professor & Head/Director, Department of Business Management, Post-Graduate Teaching Department of Commerce of Rastrasant Tukadoji Maharaj Nagpur University, Nagpur.

While addressing the students, he said that Commerce and Management Students should be masters in basic concepts of subject of their interest and at the same time they should be able to understand the application of basics in solving the real life business problems with the help of tools and techniques of Information and Communication Technology. Students must have great understanding of the latest development in the tools and techniques of Information Technology. He also mentioned that in order to have great indulgence of the tools and techniques of information technology, they must possess the quality of curiosity and zest for gaining practical knowledge and innovative ideas. For that matter, there is a need to bridge the gap between industry and academia by organizing training programmes like this. He appreciated the initiative taken by the organizers and wished good luck for many such programmes in future.

The Guest of Honor and Special Invitee to deliver lecture on 'Career in Business Data Analytics and Intelligence' was **Dr. Mrs. Mukta Paliwal** (Ph.D. and Post Doctoral Scholar-IIT Bombay) and presently LEAD DATA SCIENTIST at Persistent System, Nagpur.

In her lecture, she said "Turning numbers into actionable insights is data science for her". She also said that, the 'commerce and management students shall be able to discover the appropriate insights required for business problems from the data at hand'.

The students along with getting master in their subject shall also able to understand the real life application of analytics and machine learning because by 2022 all the traditional jobs like various clerks, administrative executives, factory workers, administrative and service managers will be replaced by Data Analysts, Data Scientists, Machine Learning Specialists, Big Data Specialists, and Digital Transformation Specialists, etc. "Big Data Analytics, Artificial intelligence and machine learning is the next new revolution taking place in Information Technology era." It will be helpful in medical diagnostics, email spam detection, weather forecasting, stock prediction, recommendation system, online fraud detection, speech recognition, etc.

CS Akhil Ramteke, Coordinator and one of the Resource Persons of Training Programme elaborated the purpose of organizing the training programme. He said Commerce and Management students are not in the position to get the jobs at Chartered Accountant's firms and other companies due to lack knowledge and skills of real life application of Accounting, Finance and taxation by using Microsoft Excel and other Business software like CompuTax, CompuGST, Tally-ERP, etc.

In Colleges, students only learn theories but don't learn how to apply theoretical knowledge of Accounting, Finance and Taxation. Therefore, by organizing such training programmes, by inviting the Industry personnel like Chartered Accountant and Company Secretaries will help students in getting actual insight of what skills are required for getting jobs.

Dr. Mrs. P.M. Siringi Vice-Principal presided over the function. CA Kunal Bhutada, CA Trupti Bhattad were Resource Persons for the training programme.
Prof. Ravi Gunde proposed a formal vote of thanks.
