

DR. AMBEDKAR COLLEGE, DEEKSHA BHOOMI, NAGPUR

DEPARTMENT OF COMMERCE

Visit to Lokmat Press: Butibori, Nagpur

Date: 13th February 2019

The aim of the visit is to give information about technology used by the Lokmat Press and to give practical exposure of solar system installed in the premises of the Press.

The aim of the Industrial visit is to give the information about how to save electricity by using the Solar system. Lokmat press is one of the example. It's a popular daily news paper in Nagpur District at their printing press at various levels of printing operations solar energy is utilized, it ultimately helps to save electricity.

Installation of solar system is one time investment and it gives long term returns. 24 hours solar energy is available, therefore very smoothly the printing operations can take place. Commerce students understood the importance of solar energy and they were aware about how the solar system works. Many commerce students benefited with this visit.
