Meeting details

ACS Student Chapter DACN is presenting

The webinar started at 11:45 am with the brief introduction of speaker CS Tushar Pahade by Akash Ninawe, a student from Commerce Department. Then the speaker was invited to address the students. He stated the purpose of the webinar and highlighted the need of change to excel. He also shared the difficulties faced by him in his student life. He mentioned that, those who think out of the box stand out of the crowd, normally it is assumed that student having academic excellence achieves great success in future however, nowadays this presumption has changed. He further stated that student should pursue what they are passionate about. He told the importance of a teacher in one's life. He shared his teaching and professional experiences.

Think about odd as the topic suggests itself is a unique opportunity to address various strategies one can use to optimize one's life in all areas which was beautifully explained by speaker.

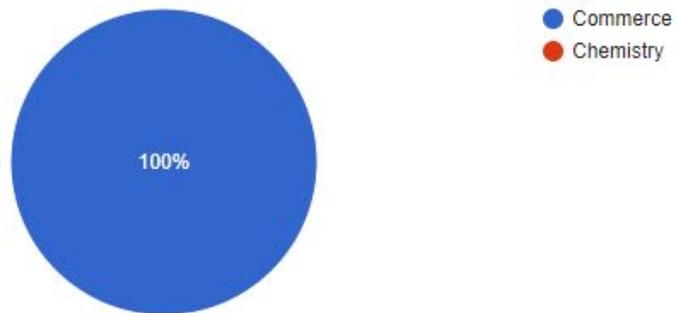

Then a round of questions and answers was taken in which students were free to ask their queries with the speaker. The speaker gave many examples to clear their various doubts. He also guided them on how to accept failures, face challenges and achieve success.

Dr. Deepa Panhekar and Dr. Varsha Panbude showed their gratitude to the speaker with their closing statement. Janhvi Gawande, a student from the Chemistry Department proposed a vote of thanks. Around 100 students registered and attended the webinar. The webinar proved to be a great success.
