## Shortage of water.

### Introduction:

Water is one of the most precious resources and as much as we want it to be, it is not an infinite resource. Water is all around us, but only 0.5% of water is fresh water. The main problem that we face all over the world is to meet daily water needs. 1 in 3 people around the world suffer from water scarcity. We struggle to get water directly to communities far from rivers, and this problem gets worse due to climate change, deforestation, population and urbanization. This problem is only going to get worse as the population grows and as the demand for water increases.

### Causes of water shortage:

1) **Pollution:** Pollution is a major cause of water shortage. Water is polluted by industrial wastes which are deposited into water bodies thus making it unfit for consumption. Oil spillage and fecal matter makes the water contaminated. It

Topic : Water Scarcity, A Problem - Measure

05/10  
Water Scarcity, a problem which is now common in all over the world. Each and every in this world have faced the problem regard water. This problem is mainly faced in the developing cities which are under construction. people of the native place faces difficulties in water. They have to wait for 2-3 days for in their home or they have to stand in queue a long time to take water in their water collection. Due to ~~water scarcity~~ many animals die because of thirst. ~~Water scarcity~~ is also caused by the fact which, throw their waste material in water and pollute the water. As we cannot use the polluted

Because of these the people who cannot get water to drink they mainly have to buy water to drink.

पाणी टंचाई एक समस्या  
व  
त्यावरिल उपाययोजना

आज सजिव हा पाणी  
जिवंत राहू शकत नाही, म्हणजेच  
सजिवांच्या जिवात पाण्याचे  
कर जास्त आहेत.

परंतु आज वाढत्या लोक  
आर्थिक क्षेत्रात पाण्याची  
निर्माण होत आहे. यावर आ  
काही करता येईल का ? आ  
कसे पाण्याच्या टंचाईला स  
जाऊ यांचा विचार करणे हे  
महत्वाची बाब आहेत.

अमेरिकीची water res
