REPORT
ON
BRAINSTORMING ACTIVITY “ALL ABOUT ME”

DATE: 19/10/22

BCA Department organized a brainstorming activity for the students of Semester I on 19th October 2022 at 12:00 pm in BCA lab. This activity was used to produce and concept new ideas, and was properly executed with the benefits of a brainstorm that can extend beyond ideation. Brainstorming as a group boosts group morale because the team is working towards a common goal in a creative and supportive setting. The activity focused on “**All about Me**”, where students were told to select any one picture out of the given images, which correlated the most with their own personal characteristics.

Students were then told individually to write few points which were similar to them with the picture they selected. Then the students who selected the same picture were grouped together. One representative from each group shared their thoughts and hence they had a healthy discussion. This activity allowed the students to think more freely, without fear of judgment. It encouraged open and ongoing collaboration to generate innovative ideas. It helped the teams to generate a large number of ideas quickly, which can be refined and merged to create the ideal solution.

More than 50 students participated in this activity and 8 groups were formed as per the different traits of the image selected. Students enjoyed the activity and contributed very positively while presenting their thoughts. The ones who participated were highly benefitted in terms of keeping their views, communication skills, knowledge about the traits, correlating themselves with others, etc. The coordinator of the event were Dr. Harshala Pethe, Mrs. Priyanka Soitkar and Mrs. Shama Khan and was successfully executed.
