## Department of Statistics

### Interaction with Past Meritorious Students for Career Counselling and Job Opportunities. (22<sup>nd</sup> January, 2019)

Department of Statistics organised an interactive session with alumni of our department Mr. Prashant Dupate, Assistant Professor from City Premier College, Nagpur. Mr. Prashant Dupate after post graduate degree in Statistics joined IIT Kharagpur for M.Tech. course in Computer Science and Data Processing. The guest speaker was introduced to the students by Ms. Yogini Raut of B.Sc. Sem VI student.

In his interaction with students Mr. Prashant Dupate shared his own story beginning from his tenth standard results to his earning post graduate degree from IIT Kharagpur. He talked about importance and application of Statistics in different fields like industries, agriculture, research, banking, finance and also in different professional courses. He talked at length how and why different organization are picking up graduates with Statistics as one of main subjects as employees. He emphasised that students of Statistics have a higher success ratio in cracking interviews because of their ability to analyse and draw valid conclusions from compiled information.

He informed students about different computer softwares for analysing statistical data and further recommended that student should try and learn the use of these software to increase their employability.

The programme was largely attended by faculty and students of Department of Statistics. Mr. Prashant Dupate was presented a token of appreciation and gratitude by Ms. N. Chandrika a student of B.Sc. Sem II. At the concluding part of this session Ms. Divya Anthony a student of B.Sc. Sem IV proposed vote of thanks.
