Department of Statistics

Students' Seminar (2018-19)

(2nd Feb, 12th Feb, 21st February, 2019)

Seminars were organized for the students of B.Sc. I, II and III. For this the students were allocated certain topics from their syllabus. They were also given books for reference and a few tips. This helped the students to understand the topic in a better way. This also gave them an opportunity to face the audience, which most of the students did for the first time. This will definitely help them in their future career. It was found from the past experience that the students who gave seminars could do better in their written examination. .
