Career Guidance by Ex Student to Our Present Students (21st November, 2020)

In today's competitive world the students are facing dilemma while choosing a career after graduation. Many venues are available about which the students are not aware. Hence it was felt that our ex-students can guide our present students about which career they should choose after graduation since they have gone through this phase themselves. Therefore Department of Statistics, Dr Ambedkar College, Nagpur organised a Guest Lecture of ex-student Prof. Dinesh Patil on 21st November, 2020 in which he elaborately explained our present students various options available to them. Prof Dinesh Patil is currently working as Assistant Professor in Nagpur Veterinary College, Nagpur. The programme began with a formal welcome speech by Mrs. A. M. Badar, Asso. Professor of DACN who also introduced the guest. The program was well attended by students of Statistics. In all 79 students attended the program.

He gave information about various career options available to Statistics students after graduation. He gave detailed information about reputed companies who have requirements of students with statistical background such as TCS, Infosys, Insurance companies, manufacturing companies etc. Thereafter he gave information about making a career in govt. and corporate sector, opportunities available to Statistics students as Data Analyst, Bio- Statisticians, Data Scientist etc. The speaker introduced students to the vast number of opportunities which are available to the students of Statistics in India as well as abroad. He pointed out the large opportunities available for students as biostatisticians and data scientists.

He stressed the importance of mastering the latest softwares such as Excel Statistical Package, WASSP, R, JASP, SOFA, Scilab, jamovi, MacAnova and PAST etc. Students familiar with the use of softwares are preferred in the selection process for the jobs. He gave information to students about books to be referred for NET and SET examinations so that they can make career in the academic field. The doubts of the students were gladly cleared by the guest. The programme ended with a formal vote of thanks by Ms. Sharvari Tikre.
