Report of Essay Writing Competition
on
“Hazards of Holi Colours”

Date of Essay Submission : 16/03/2019

Department of Chemistry organized an Essay writing Competition on “Hazards of Holi Colours” for B.Sc. Chemistry Students. Holi is an annual festival celebrated by the Indian community especially young generation with much enthusiasm and happiness. It is the festival of colours celebrated in spring season in India. Increase in usage of industrial chemicals in holi colours has added risk to our life. There is a severe health concerns raised during recent years due to use of hazardous colours during Holy festival. Most people are also unaware of the components used to make these colours. It is increasingly become very important to create awareness of chemicals being used in the colours. Essay writing is not just a method of academic assessment, but also an art. This is an art of reporting and describing about a topic. The students were asked to write Essay on the topic “Hazards of Holi Colours”. Eighty two (82) students have submitted the essay. The essay was judged on the basis of the student’s vocabulary, presentation and creativity and certificates were distributed to the students. The purpose of the competition was to encourage the students to enhance their thinking and writing skills. The essays were well written by the students. The activity was organized by Prof. N. G. Telkapalliwar and Dr. Mrs. D. M. Borikar.

The winners of this essay competition were:
