

**DR. AMBEDKAR COLLEGE,
DEEKSHABHOOMI, NAGPUR
DEPARTMENT OF COMPUTER SCIENCE
SOCIAL OUTREACH ACTIVITY
DONATION OF COMPUTER MONITORS/CPU-22 NOS
DATE: 15 FEBRUARY 2021**

The Department has 02 Computer Laboratories dedicated for practical sessions of UG and PG courses in Computer Science. More than 60 computers are needed functional anytime during the session. As the syllabus of courses changing and new programmes and software associates are introduced, these computers are required to be updated from time to time. This keeps the laboratories run well and keep pace with changing times.

However, the older equipments cannot be just discarded as they are still useful for minor computer operations such as word, excel, ppt, etc. Otherwise, just a piece for scrap, these machines can yet be used for a better purpose. Keeping this in view, the department decided to donate a few CPUs and Monitors to needy organizations.

Faculty Members searched for appropriate organization where these equipments can be really used for the benefit of the society, especially learners in academics.

Little Star Convent High School, Near CRPF Gate, Hingna Road was identified, visited and following a proper mode of communication, donation of computers was finalized.

Mr. Vishal Meshram from Little Star Convent High School collected the equipments on 16 February 2021.

Dr. Mrs. Mehre, Principal; Dr. Shailesh Bahadure, Dr. Pankaj Nimbalkar & Mr. Aashish Moraskar were present on this occasion.
