

Dr. Ambedkar College, Deekshabhoomi, Nagpur
Life Line Services Cell
Report 2021-22
Training program on CPR, First Aid in Burns and Roadside
Accidents
Date- 25th to 27th November 2021

Dr. Ambedkar College, Deekshabhoomi, Nagpur
Life Line Services Cell
“Three days Workshop on First Aid”

NOTICE

Date: 24th November 2021

It is to inform that the Life Line Services Cell is organising three days workshop on First-aid From 25th to 27th November at 12.00 P.M. for all the members of Life Line Services cell. It is requested that all the members of Life Line Services Cell should inform at least two student volunteers each from their respective departments. Attendance is mandatory.

Guest Speaker: Dr. Sanjay Gadekar, Senior General and Laproscopic Surgeon

Date & Time: 25th to 27th November, 12.00 P.M.

Join Zoom meeting:

<https://us06web.zoom.us/j/83175126517?pwd=eFNRRU1BSVpRYTIRWmxscHUXSmY4Zz09>

Meeting ID: 831 7512 6517

Passcode: 081855

Principal

Report:

The Lifeline Services Cell of Dr.Ambedkar College, Deekshabhoomi,Nagpur organized a “Training Program on CPR, First Aid in Burns and Injuries and First Aid in Roadside Accidents” from 25th to 27th November 2021. This online training program was organized to train the students, faculty members and members of non-teaching staff of the college to take care of any person needing medical help in case of emergency in and around the college.

Miss. Rita Lakakul, Member, Lifeline Services cell, conducted the training programs. All the members of the lifeline services cell participated in the training programs. Dr. Jitesh Tripathi, Coordinator of the Lifeline Services cell, Dr. Ambedkar College, Nagpur presented the aims and objectives of the lifeline services cell of the College. Dr. Panse, Member, Lifeline Services cell proposed the vote of thanks.

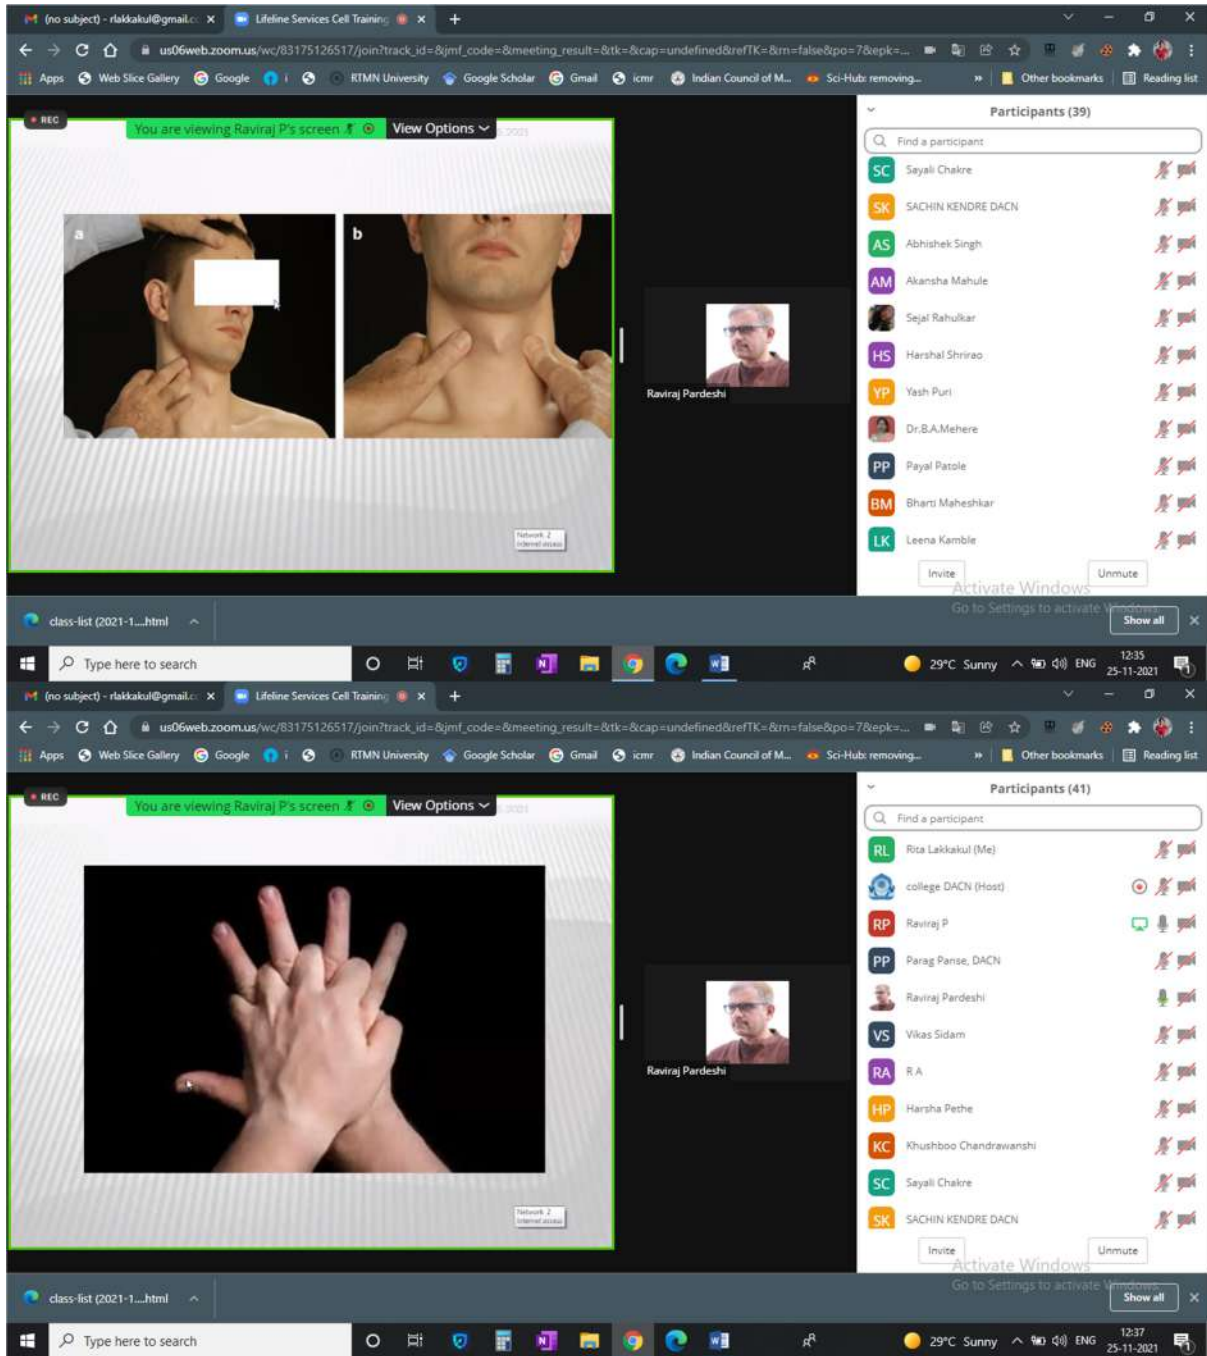

On 25th November 2021, the guest speaker for the day was Dr. Raviraj Pardeshi, Professor in Sharir Kriya at Jupiter Ayurveda Medical College, Nagpur, delivered a talk on CPR.

On 26th November 2021, Dr. Leena Y. Ingale, Assistant Professor, Dept. of Anesthesiology IGGMC, Nagpur, delivered a talk on First aid in Burns and injuries.

On 27th November 2021, Dr. Mohan Joshi , MD in Preventive and Social Medicine, Associate Professor in NKP SIMS and LMH, Digdoh Hingana, Nagpur, delivered a talk on First Aid in case of Roadside Accidents.

The program was a success.

Fang marks

1. Apply a broad pressure bandage from below upwards and over the bite site as soon as possible. Do not remove trousers, as the movement of doing so will assist venom to enter the blood stream. Keep the bitten leg still
2. The bandage should be as tight as you would apply to a sprained ankle. The patient should avoid any unnecessary movements
3. Extend the bandages as high as possible
4. Apply a splint to the leg, immobilising joints either side of the bite
5. Bind it firmly to as much of the leg as possible. Walking should be restricted
6. Bites on the hand and forearm: a bind to elbow, b use splint to elbow, and c use sling

FIRST AID Chemical Burns

- 1  Ensure that the area is safe and that you are protected from the chemical. This may involve wearing personal protective equipment (PPE).
- 2  Locate the chemical data sheet. This will include details of PPE requirement and specific first aid procedures.
- 3  The burn area should be flooded with water for 20 minutes to ensure that there is no contamination from the chemical to other areas of the body.
- 4  All chemical burns require professional medical advice following first aid treatment.

Chemical burns Rinsed with water

- Flush the area for at least 20 minutes.
- As you flush the area, take off any clothing or jewellery that has the chemical on it.
- If the area still has a burning sensation after 20 minutes, flush the area again with flowing water for 10 to 15 minutes.
- Hydrofluoric acid is flushed with a large amount of water and treated with calcium gluconate. You need immediate medical care.

- Do not use a hard spray of water, because it can damage the burned area.
- Have the person with the burn remove the chemical substance if he or she is able.
- Put on gloves to protect yourself from the chemical, if you need to remove it.
