## **School student education Activity**

**Topic: “Genesis 2018”**

**By**

**Seeding Labs Campus Chapter**

**Date: 20<sup>th</sup> and 21<sup>st</sup> of September 2018**

**Report**

Department of Biochemistry and Biotechnology along with Seeding Labs Campus Chapter of Dr. Ambedkar College, Deekshabhoomi, Nagpur organized a science event ‘GENESIS’ for high school students on 20<sup>th</sup> and 21<sup>st</sup> of September 2018 in partnership **with CSIR-NEERI, Nagpur**. More than 200 enthusiastic students from schools in and around Nagpur participated in this event. Mrs. B. A Mehere, Head of the Biotechnology and Biochemistry department of Dr. Ambedkar college welcomed the chief guest, Mr. Tushar Kulkarni, operation theatre technology trainer at Virohan Institute of Health and Management Science, Nagpur, who was also the prime sponsor of the event. They demonstrated a short CPR and first aid training program to create a general awareness among the students. The members of Seeding Labs prepared various innovative science models which proved to be a learning experience for the school students. With an endeavor to promote scientific attitude among budding young students, a lab tour with live experimental demonstrations was arranged to showcase the practical aspects of life sciences on the second day of the event. The students were introduced to various instruments routinely used in a biotechnology laboratory by the UG students the college. It was followed by a poster competition for the school students in which Namrata Chauhan, Akshata Godbole and Madhuri Lekurwale of B.R.A Mundle school stood first. Disha Thawale, Anushree Thool , Anushka Dhepe of Hadas High school came second and Diksha Dayama, Rasika Kharche of Hadas High school received the third prize. The success of the event was evident from the degree of satisfaction all the participants shared with the members of Seeding Labs-DACN, BBS, India.

This event was supported by Virohan Institute of Health and Management Sciences Nagpur and Patil’s Maths classes.
