

Dr. Ambedkar College, Deekshabhoomi, Nagpur

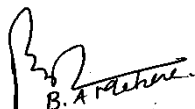

Notice

Date-19-04-2022

Department of Biochemistry and Biotechnology, Dr. Ambedkar College, Deekshabhoomi, Nagpur is conducting a “**State Level Seminar on Clinical Research**” to be organized for the students of UG and PG (BT, BC, CBZ) with an objective to give placements to students in different National Laboratories in association with Spruce Research Clinical Research Academy, Nagpur. The speaker for the seminar is Mr. SharadKumar Halmare, Director, Spruce Research Clinical Research Academy, Nagpur on dated 23rd April 2022 at 10 am.

Date-23-04-2022

Venue- Biochemistry Laboratory, Department of Biochemistry and Biotechnology.

Principal of the college

Dr. B. A. Mehere

Coordinator

Dr. Utpal Dongre

DR. AMBEDKAR COLLEGE, DEEKSHABHOOMI, NAGPUR.

DEPARTMENT OF BIOTECHNOLOGY AND BIOCHEMISTRY

Welcomes you for

**State Level Seminar
ON**

“ Clinical Research ”

Date: 23rd April 2022

Time: 10 Am to 11 Am

Venue: Room No 1

Who can Attend: UG, PG students of BT, BC, CBZ.

Objectives of the Programme: To give placement to students in different national laboratories.

Speaker: Mr. Sharadkumar Halmare (Director, Spruce Clinical Research Academy, Nagpur)

Organising Secretary: Ms. Rashmi Vijay Nagdeve, Spruce, Nagpur

**Principal
Dr . B A Mehere**

**HOD
Dr Utpal Dongre**

**Co-Ordinator
Mrs. Sweta Paranjpe**

Report

on

“State Level Seminar on Clinical Research”

Department of Biochemistry & Biotechnology, Dr. Ambedkar College, Deekshabhoomi,
Nagpur

The healthcare industry is touted as one of the evergreen sectors. As the world is evolving, it is not just the healthcare sector that is growing rapidly but the clinical research industry is also registering tremendous growth, especially in the times of COVID-19. People have understood the importance of the Indian clinical research industry even better during a global pandemic. On one hand, the healthcare industry led the fight against the Coronavirus, and on the other, it was the clinical research industry that enabled the battle by coming up with the vaccine.

Moreover, the Indian clinical research industry is at an all-time boom right now. It led the battle against Coronavirus by coming up with not only one, but multiple vaccines. The clinical research industry employs about 2, 10,000 people in the US and more than 70,000 people in the UK. Not just that, the global market for the Clinical Research Industry is all set to grow over two billion US dollars in the coming years. Around 50,000 clinical research professionals are required in the clinical research industry. A career in clinical research is fast becoming one of the most sought-after options.

One of the most lucrative elements about a career in clinical research is that you do not need to come from a hardcore medical background to pursue a career in the field. While those with a medical background can take their career to the next level with a specialization in clinical research, even those with other specific skills can excel and make a mark for themselves in

the industry.. To provide our students with the knowledge of what clinical research is, its job prospects and the skills to needed to pursue such jobs Department of Biochemistry and Biotechnology DR. Ambedkar College, Deekshabhoomi, Nagpur had organised a “**State Level Seminar on Clinical Research**” by Mr. SharadKumar Halmare, Director, Spruce Research Clinical Research Academy, Nagpur on dated 23rd April 2022 at 10 am.

The seminar started with the formal introduction of Mr. SharadKumar Halmare, Director, Spruce Research Clinical Research Academy, Nagpur by Dr. Utpal Dongre, Assistant Professor, Department of Biotechnology and Biochemistry and the coordinator of the program. Mr. SharadKumar Halmare in his lecture beautifully explained the importance of developing extra skills and training in self to get esteemed job in future. He emphasized the role of getting skilled and the scope in the field of medical coding and clinical research to get different jobs in future. He said new skills attained in their professional journey will help the candidates advance in their careers and assume bigger roles.

He explained the demand and supply gap for certified medical coders is approximately 40% and has increased significantly over the last year. The field of medical coding is growing at a much faster rate than average, with the employment of medical coders projected to grow 15 percent by 2024. The demand for skilled medical coders can only be seen to be increasing as they are key to the smooth functioning of the revenue cycle in the healthcare sector. With automation foraying into the medical coding arena, there is a greater need for analytical and decision-making ability of the medical coders.

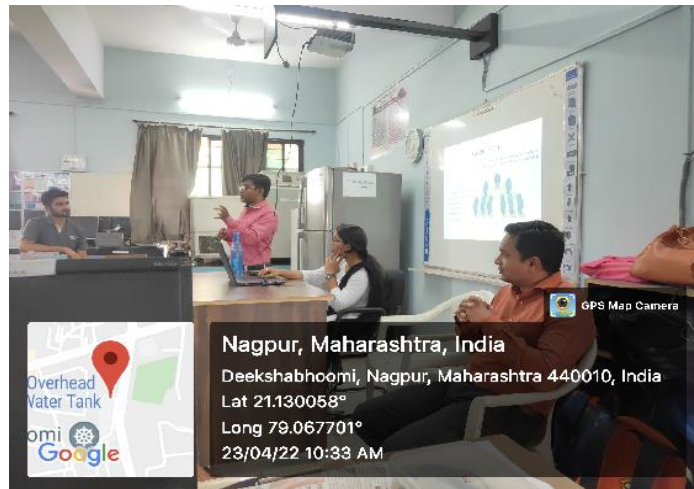

Their timely intervention can lead to tremendous optimization of the revenue cycle, benefitting both providers and patients ultimately. Through their role as medical coders, professionals can develop skills that are valuable in numerous healthcare business roles. These include practice management, auditing, documentation improvement, compliance, among others.

He also told that a clinical research degree trains the students in Clinical Data Management, Medical Writing, Pharmacovigilance, Management, and Soft Skills. These all helps the candidate to get various jobs in IT, Healthcare sectors.

In the program a total of 70 students were present out of which 60 girls and 10 boys were benefitted from the program. The coordinator of the program Dr. Utpal Dongre, Assistant Professor and HOD, Department of Biochemistry and Biotechnology, Co-coordinator of the program Mrs.Shweta Paranjape, Assistant Professor, Department of Biochemistry and Biotechnology, with other staff members Dr. Deovrat Begde, Mr. Rohan Thaware, Mr. Pradip Hirapure, Ms. Rita Lakkakul, Ms. Aditi

Bharadwaj and non-teaching staff members were present in the seminar. The program ended with the formal vote of thanks by the coordinator of the program Dr. Utpal Dongre.
