Report

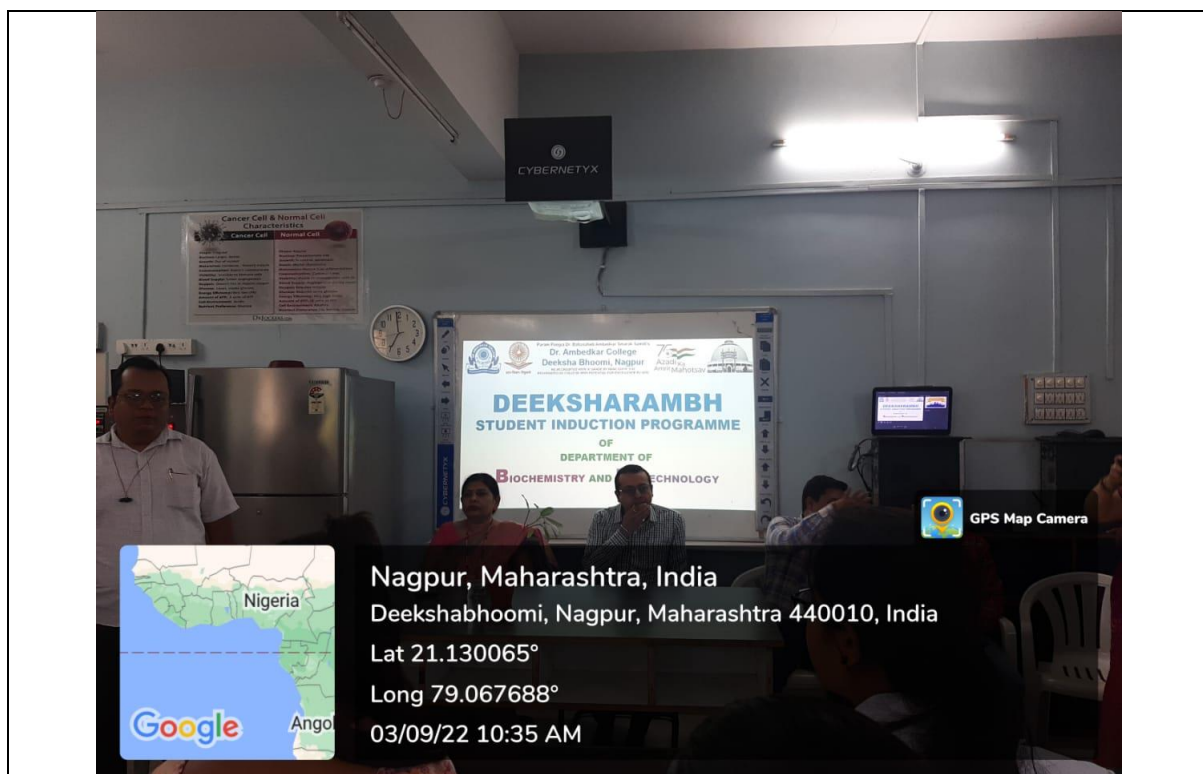

University Grant Commission (UGC) has developed 'Deeksharambh - A guide to Student Induction Programme'. This program intends to help students to acclimatize the new college environment, develop sensitivity towards various issues of social relevance, and imbibe human values in them to become responsible citizens of India. Department of Biochemistry and Biotechnology conducts a similar student induction program every year with a similar intention for the student of B.Sc. Semester 1. This year, Deeksharambh was conducted by the department on 3rd September 2021 in room no. 204. The program was preceded by the Principal of the college Prof. Dr. B. A. Mehere and chaired by the Head of the Department Dr. Utpal Dongre. The program was conducted by Mr. Rohan Thaware, Assistant Professor, Department of Biochemistry and Biotechnology.

Dr. Utpal Dongre welcomed Dr. B. A. Mehere by presenting her with a plant sapling. Program coordination Mr. Rohan Thaware presented the Deeksharambh program presentation. He welcomed students and told them about the department's vision and mission. He stressed upon the SAGE approach in developing ideal student values and development of good characteristics. As per the tradition the students are made aware of the constitutional values like fundamental rights and duties. Specially focusing on article 51 A(h) which state that it is the duty of every Indian citizen to develop the scientific temper, humanism and the spirit of inquiry and reform.

The who's who of the department were introduced to the students like teaching and non-teaching staff of the department and the Ph.D. guides of the department. This was followed by a brief introduction to the subject Biochemistry and Biotechnology and the prescribed syllabus. All the facilities like departmental library and laboratory were also shown to the students which they can avail with proper permission and care. Students were also encouraged to take active participation in extracurricular activities like seeding lab and seminar etc. The students were motivated by the laurels achieved by the previous students of the

department which were also showcased in the presentation. Information regarding other courses offered by the department were also given to students. Students also learned the important sites to visit during their course work. The common concerns of the college regarding student's safety and fashion sense were discussed in the end part of the presentation. The presentation ended with the information regarding the SWAYAM and NPTEL portal.

The presentation was followed by address of Principal Dr. B.A. Mehere. She directed students that the secret of their success in Dr. Ambedkar College will be Self-discipline and hard work. Mrs. Shweta Paranjape also addressed the students and insisted on the decent fashion sense in the college and directed students to maintain the decorum of the college.
