

MENTORING REPORT(2022-2023)

The first session of mentoring were conducted by each mentor with their mentees during 3rd and 4th week of December-2022 offline mode. There are 144 students from BCA SEM-I and nine(9) faculty members. Each faculty members are mentors of 15-16 students. We had a general interaction with the individual students discussing about their education, family background, health issues, and knowledge about course, computer literacy level, their strength and weaknesses. Student were asked to fill mentoring form to receive their valuable inputs to better understand and compatibility.

The second session of mentoring was conducted by each mentor with their mentees during second and third week of April through offline mode. There are 140 students from BCA SEM-I and nine(9) faculty members. Each faculty members are mentors of 15-16 students.

After conducting first interaction we were able to see the positive effects on students in their personal, academic and professional situations. Our first mentoring helped our students in their personal growth and development and also provided them an opportunity in social and economic backgrounds. Mentoring increased their self-confidence, self-awareness, and leadership skills. Students improved their communication skills and also developed an art of delivering feedback.
