REPORT

On

**Book Donation By Book Donated by Dr. Atul Kulkarni, Field Officer,
Fertolife Science, Pvt. Ltd.**

Department of Biochemistry and Biotechnology organized a **BOOK DONATION** program on 1/7/23. Books are sources of information from very early time. Still they are considered as a medium to spread education to the people. From our childhood; we have started learning with the help of the books Education is at the heart of every society. There are two parts to education: **theoretical and practical**. Application of theory into practice is essential to understand the basics of each theory.

To nurture basic research in Biochemistry and Biotechnology, HiMedia has undertaken a **MISSION TO GENERATE CURIOSITY** among students through the medium of Teaching Kits. HIMEDIA achieve this mission by **developing premium quality research grade hands-on kits and assay like HiPerTeaching Kits Handbook**.

Dr. Atul Kulkarni, Field Officer, Fertolife Science, Pvt. Ltd. donated **HiPerTeaching Kits Handbook** to the library of Dept. of Biochemistry and Biotechnology. These kit developed by HiMedia will stimulate the scientific outlook in young minds of students motivating them for a fulfilling career in Biosciences by the concept of **Learning by Doing**.

All the faculty members were present in this program.

Book Donated by Dr. Atul Kulkarni, Field Officer, Fertolife Science, Pvt. Ltd.
