

Report on the Departmental Induction Program

Date of the Program: 14th September 2023

No. of participants: 54

Hosted By: Physics Department, Dr. Ambedkar College, DeekshaBhoomi, Nagpur

The Departmental Student Induction Programme, held on September 14, 2023, marked the official welcome of newly admitted first-year students pursuing BSc and MSc Physics programmes. The program's goal was to give incoming students an engaging and informative introduction to college life, to foster a sense of community, and to inspire them for the

academic journey ahead. Shrutika Patinge, a second-year MSc physics student in the physics department, was the event's host. The event began in earnest with a prayer to Lord Buddha and Bharat Ratan Dr. B. R. Ambedkar.

Dr. Mrs. A. N. Wazalwar, Head of the Department, emphasised the importance of higher education, encouraged students to pursue their interests, and described the college's commitment to academic excellence. This speech motivated and inspired the newcomers. Later, she introduced all of the teaching and non-teaching faculty members to the students.

Senior professor Dr. N. S. Meshram sir provided an overview of the college's academic standards and quality assurance measures. This segment gave students a better understanding of the vibrant culture and academic excellence at the university.

The trivia game, led by Ayush Fendar, a BSc second-year student, was a lively and interactive activity that allowed the new students to meet their classmates. It encouraged them to step outside of their comfort zones and feel a part of the college community. Prerna Arora, a BSc second-year student, gave a sincere vote of thanks to all participants, including students, faculty, and staff, after the induction ceremony. It emphasised the importance of college community collaboration and unity. As the students begin their academic journey, the college administration hopes that the insights and connections gained during this induction programme will serve as a solid foundation for their success in the years to come. The program's success demonstrates the college's commitment to the holistic development of its students, and it sets a positive tone for the upcoming academic year.
