Internship and miniproject awareness program

No. of students:-36

Venue:-Information Technology Laboratory

Date:-16-02-2024

Department of Computer Science organised Internship and mini project awareness program for PG students as per new NEP guidelines On 16th of February 2024,   the students of M.Sc. Computer Science had the privilege to interact with Mr. Nilay Dube from RAK Solutions

Pranoti Rokde and Mansi Chaudhary started the session by welcoming the eminent personalities from RAK Solutions. Dr. P. V. Nimbalkar floral welcomes the Guest Mr. Deven Dande and introduced the Guest. Mr. Deven Dande started interacting with the students. The subject matter of his interaction was 'Carrier in IT Industry' and how RAK Solutions can be useful to the students to promote the goals of securing a good package in MNCs.The guest also explained about training and project facility and infrastructure facilities available at their centre.

RAK Solution has facilities in Pune, Lucknow, Nagpur and Hyderabad. They help in branches in SAP, industrial, IOT and training. They take RAW students and turn them into assets in companies like Accenture, TCS, Mahindra, Tech Mahindra, and Infosys, etc. They have development projects in Artificial Intelligence, Machine Learning, R language, Python, Industrial Automation, PLC developer, and SDLC, etc.

Currently they are having 2 internships of 3 months and 6 months in which they provides training course in AI and cloud Computing, resume building and portfolio.

The programme was coordinated by Prof. Winit Anandpawar Sir and Dr. Vijeet Meshram Sir.

Overall experience and feedback of the session was very positive and supportive in every aspect. Such programs would be essential for boosting the confidence of students.
