*Certificates will be awarded to all participants

Introduction :

On March 22, 2024, the ACS International Student Chapter at Dr. Ambedkar College organized an exhilarating event called CHEM-HUNT, centered around the theme of Photography and Imaging. Led by Dr. Mrs. Deepa Panhekar, Faculty Advisor, the event

aimed to engage students in a fun and educational exploration of chemistry through various rounds of challenges.

Challenges and Rounds:

The event comprised three rounds designed to test participants' knowledge, creativity, and quick-thinking skills. The first round featured a Quiz with 25 multiple-choice questions, followed by a Riddles round creatively arranged in an interconnecting dots format. The final round, Rapid Fire, consisted of 15 questions, including a segment where participants had to identify famous scientists.

Participants and Winners:

A total of 20 students enthusiastically participated in the event, showcasing their passion for chemistry and photography. Of these, 16 students successfully cleared the first round, leading to the formation of four groups, each comprising four students. While all groups performed admirably in the second round, only one group advanced to the third and final round. The winners of CHEM-HUNT 2024 were announced, with Mukund Renke securing the first position, followed by Aditya Chakre and Shivani Borkar in the second and third positions, respectively.

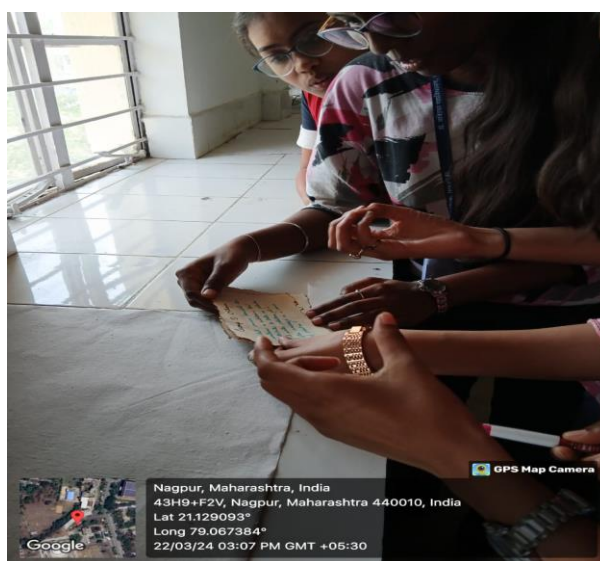

Acknowledgments:

The success of CHEM-HUNT was made possible by the dedicated guidance and support of Dr. Mrs. Deepa Panhekar, Faculty Advisor, and Dr. R. C. Sawant, Faculty Co-advisor, along with the assistance of Mr. Parag Panse, Assistant Professor, and the entire ACS team. Their collective efforts ensured the smooth execution and success of the event, providing students with a memorable and enriching experience.

Conclusion:

CHEM-HUNT 2024 not only showcased the creative talents and chemistry knowledge of the participants but also highlighted the importance of integrating photography and imaging in the study of chemistry. Through engaging challenges and collaborative teamwork, the event served as a platform for students to explore and appreciate the interdisciplinary nature of science while fostering camaraderie and enthusiasm within the academic community.
