**Name of Program:** Water-day event: Save water, Save our planet.

**Organised by:** Department of Chemistry Under the Aegis of American Chemical Society International Students Chapter.

**Venue of Program:** Department of Chemistry Dr. Ambedkar College, NAGPUR.

**Date of the Program:** 22<sup>nd</sup> March 2024

**No. of Participants:** 27

World Water Day, celebrated annually on March 22<sup>nd</sup>, serves as a poignant reminder of the essential role freshwater plays in sustaining life and ecosystems. This global event aims to raise awareness about the importance of water conservation, advocate for the sustainable management of water resources, and promote access to clean water for all.

World Water Day holds immense significance on a global scale, as it addresses pressing water-related challenges that affect communities worldwide. From water scarcity and pollution to

inadequate sanitation and unequal access to clean water, the day serves as a platform to highlight the urgent need for collective action to address these issues.

Various organizations, communities, and governments around the world organize events, campaigns, and initiatives to mark World Water Day. This activity is designed to raise awareness about water conservation and protection, educate the participants about the importance of sustainable water management practices, and advocate for policies that prioritize access to clean water for all individuals and communities

As we commemorate World Water Day 2024, let us reflect on the vital role water plays in sustaining life and ecosystems. Let us reaffirm our commitment to protecting and preserving this precious resource for the benefit of all humanity. Through collective action and collaboration, we can work towards a future where clean water is accessible to every individual, ensuring a sustainable and prosperous world for generations to come.
