Program Date: 13th February-2020

Venue: Mini Auditorium, Room No 1, Dr. Ambedkar College, Nagpur

Resource person: **Mr. Anil Tatote, Training officer, Department of Robotics & cloud Technology, RTMNU, Nagpur**

Department of Computer Science Celebrating **Internet Safer day** on 13th February 2020. On this occasion Department organized a Seminar on **Cloud Technology and Information Security** for B.Sc Final year Computer Science students.. Dr. P.V. Nimbalkar, Head, Department of Computer Science, welcomes and introduced the Guest. Ms. Nupur Iyer B.sc. Sem-VI(PCOM Group) Comparing the program while Kirti Pande B.sc. Sem-VI(PCOM Group) proposed a formal vote of thanks.

The resource person covered Cloud Computing and Information Security concepts, it was an informative session.

Some highlights of the Cloud Technology and Information Security covered in the workshop:

1. Introduction to cloud Computing
2. A business scenario
3. Conventional Computing Vs. Cloud Computing
4. Application platform
5. Position of Players
6. Hiring Companies

The guest also emphasized on how cloud computing and Information Security differs from the other languages like Java, VB.Net etc. This comparative study helped students to get a clear idea about how the programming languages differ from each other.
