He gave detailed information about equity investment with case study. Mutual Funds, Online KYC process, Power of attorney, fee cap for investment advisors. He elaborated and explained all the topics through PPT presentation.

According to him women should know the meaning of primary market and secondary market. Women should also know the basics of stock market trading for financial securities. The speaker shared some tips for the first time investors like - fix an investment goal, choose the right fund, short list & choose one mutual fund etc. The important thing in stock is grievance redressal, which help us to ask our queries to them. They resolve our problems through online portal, email or written letter at any investor service center. The session was very informative for girl students.
