The mentoring activity for the 2024-2025 session was organized for regular students. Dr. A.N. Wazalwar, Head of the Department, along with faculty members Dr. A.R. Bansod, Dr. Namrata Pradnyakar, and Dr. Pritee Wakudkar, assigned the B.Sc. II and III PEM and PSM students, as well as the B.Sc. 1 (NEP) students, to their respective mentors.

Forms were generated and feedback was received from the 40 students for whom mentoring activity was conducted. The questionnaire form was designed keeping in mind, about

scholastic development, psychological development, personality development and emotional well-being of the students; Students were guided according to the feedback received from students in each session. The analysis was conducted, and feedback was promptly provided to the students. Suggestions and improvement areas were notified to each mentee. All the mentors interacted with the mentees on different problems which were faced by them. Suggestions and improvement areas were given to them and timely review was provided. Progress of each student was recorded and noted down.

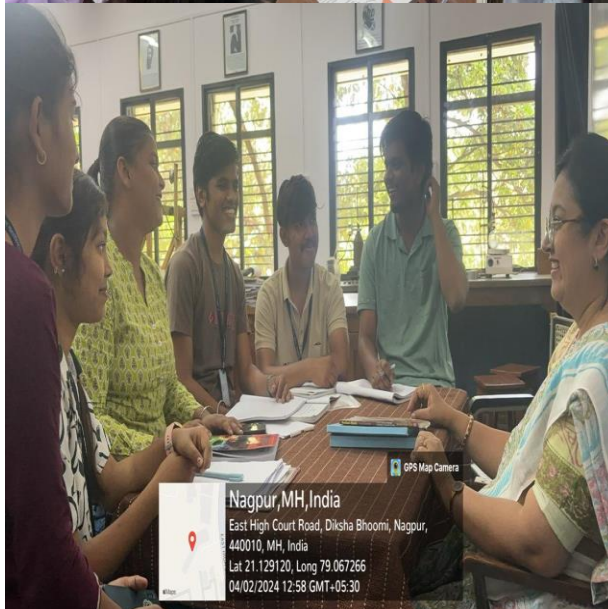

Any problem may it be personal or academic was addressed by the faculty members and suggestions were duly given to the students for improvement. Through this activity emotional support was also provided to the students who needed them occasionally. Majorly students face problems due to medical issues, their financial situations and lack of concentration in studies due to overly use of social media. The faculty members duly solved the problems, gave suggestions and tried to solve the problems of the students may it be teaching, learning or stress generated due to their day to day life. This year students in first year admitted according the NEP 2020 who has Physics as their major subject. The faculty members briefed the new students on the objectives of NEP 2020, how it can be implemented for undergraduate students, and the structure and requirements of the new education policy. Continuous assessments will be encouraged along with exams, making it necessary for students to maintain good academic performance consistently. A minimum of 50% is typically required to pass.
