

# DR. AMBEDKAR COLLEGE, DEEKSHABHOOMI NAGPUR

DEPARTMENT OF CHEMISTRY

## ORIENTATION OF B.SC. SEM I MAJOR CHEMISTRY

The orientation session was designed to guide students on their academic journey and familiarize them with the resources and opportunities available at the college. The session began with a warm welcome, followed by an introduction to the faculty members, fostering a sense of connection between students and their mentors. Academic guidance was a key focus, with detailed information provided on theory and practical courses, highlighting the importance of regular attendance and consistent preparation. Study tips were shared to help students manage their learning effectively and stay on track.

The session also explored career opportunities, offering insights into various paths students could pursue after completing their studies, particularly in B.Sc. Chemistry and related fields. Laboratory safety rules were emphasized, ensuring students understood the importance of following guidelines and maintaining caution while working in the lab.

Additionally, students were introduced to the campus facilities, including the Main Library and Core Library, where they could access a wealth of learning resources. Information about the canteen and other amenities was also provided. The importance of adhering to college rules and maintaining discipline on campus was underscored to create a positive and productive academic environment. Overall, the session offered a comprehensive overview to help students adapt to their new surroundings and make the most of their time at the college.
