Report on Essay Competition organized by Department of Commerce on Date 18.09.2025, Time : 10.00am at Kumbare Hall, Dr. Ambedkar College, Deekshabhoomi, Nagpur

To celebrate World Bamboo Day, an Essay Writing Competition was organised for the students with an aim to create awareness about the ecological, economic, and cultural significance of bamboo often called “Green Gold” and to encourage students to express their ideas creatively and logically.

Students participated in essay writing based on following themes:

- 1. Bamboo: The Green Gold**
- 2. Environmental & Economic importance of Bamboo.**
- 3. Bamboo the Green Treasure of the Earth**

Participants showcased their knowledge of bamboo cultivation, environmental benefits, and potential uses of bamboo in various industries.

Objectives of the Competition:

1. To enhance students’ knowledge about the importance of bamboo in sustainable development.
2. To promote environmental awareness and conservation values.
3. To encourage critical thinking, creativity, and writing skills.
4. To involve students in World Bamboo Day and highlight bamboo’s role in daily life.

Overview of the Program:

A total of 23 students from B.Com Classes enthusiastically took part in the competition. Students displayed great interest in exploring bamboo’s uses in construction, medicine, industry, and environmental protection. Participants wrote essays on the given themes covering aspects such as Bamboo as an eco-friendly resource, its role in climate mitigation, uses of bamboo in crafts, furniture, paper, textiles, and architecture, Bamboo’s economic importance and livelihood generation, cultural significance in India and other countries.

Essays were evaluated by a panel of judges based on:

Relevance to the theme, Creativity and originality, Clarity of expression, Structure and presentation, Environmental insights and practicality of ideas.

Panel of Judges:

Dr. Ankita Tirpude, Asst. Prof, Dept of English

Dr. Ankit Pusadkar, Asst. Prof, Dept of Commerce

The best essays were selected and prizes/certificates were awarded to the top-performing students.

1st Prize : Ms.Rutika Bawangade

2nd Prize : Ms. Pranali Zade

3rd Prize: Ms. Mayuri Uikey & Ms. Vaishnavi Pannase.

All participants received appreciation for their thoughtful contributions and enthusiastic participation.

The involvement of the faculty members Dr. D. H. Puttewar, HOD, Dept. of Commerce, Dr. Varsha Panbude, Dr. Akhil Ramteke , Dr. Vaishali Fating, Dr. Ankit Pusadkar, Prof. Purvesh Fating, Prof. Dashrath Vasnik, Prof. Nidhi Nakhale, Prof. Pooja Kamble, Prof. Nanda Yadav, Prof. Sankalp Hadke, Prof. Poonam Vishwakarma, Prof. Abha Giri & Prof. Sarika Dhanokar with their coordinated efforts ensured active participation & execution of all the activities.

Conclusion:

The Essay Competition on Bamboo theme successfully created environmental awareness among students and highlighted the importance of sustainable natural resources. The event encouraged students to view bamboo as versatile, renewable, and valuable plant with immense potential for a greener future. The program concluded with a message promoting the conservation and sustainable use of natural resources.

Essay Writing

Bamboo → The Green Treasure of Earth.

Bamboo is often referred to as the "green gold" of the plant kingdom. Bamboo is more than just a plant; it is a symbol of sustainability and cultural heritage. For centuries, bamboo has been woven into the fabric of ecosystems and human lives, providing a multitude of benefits that make it a true treasure of the Earth.

One of the most remarkable aspects of bamboo is its sustainability. It grows rapidly, often reaching maturity within a few years, and can be harvested without killing the plant, allowing for continuous regeneration. This renewable source significantly contributes to sustainable development and environment conservation. Bamboo's role in eco-friendly construction, packaging and other industries is likely to expand, offering promising prospects for the future.

Essay Writing Competition

Bamboo - The Green Treasure of the Earth.

Bamboo is truly a "green treasure of the earth", offering remarkable benefits both for the environment and human societies. This fast-growing plant can be harvested in just 3-5 years, a stark contrast to hardwood trees which take decades to mature. Bamboo's ability to regenerate from its roots eliminates the need for replanting after harvest, keeping soil intact and preventing erosion.

One of bamboo's greatest strengths is its capacity to sequester carbon. Well-managed bamboo forests absorb significant amounts of carbon dioxide, helping mitigate climate change, while also releasing substantial oxygen. The extensive root and rhizome system of bamboo plays a crucial role in stabilizing steep slopes, riverbanks, and degraded lands.

Bamboo :- The Green Gold

Bamboo :- The Earth's Green Gold and Sustainable Future.

Bamboo, often referred to as 'Green Gold' or the "Poor man's timber", is a remarkable and versatile plant that holds immense environmental and economic importance, offering a sustainable path toward greener and more prosperous future.

This fast-growing renewable resource is vital ally in combating climate change, supporting livelihoods, and fostering sustainable development across various industries.

Bamboo's environmental benefits are extensive and crucial in our fight against climate change and ecological degradation.

Bamboo is an exceptional carbon sink, absorbing significantly more carbon dioxide and releasing more oxygen.
