

Department of Chemistry, Dr. Ambedkar College, Deekshabhoomi, Nagpur

Report: Parent-Teacher Meeting (PTM)

- **Venue:** M.Sc. Classroom No. 1, Department of Chemistry.
- **Location:** Dr. Ambedkar College, Deekshabhoomi, Nagpur.
- **Attendance (Faculty):** All faculty members of the Department of Chemistry were present.
- **Attendance (Parents):** One (1) parent attended the meeting.

The Department of Chemistry organised a Parent-Teacher Meeting to discuss academic progress, departmental facilities, and student welfare. Despite the formal invitation extended to the guardians of all students, the meeting saw a unique turnout.

The meeting commenced with a cordial welcome by the Head of the Department. Although only one parent was in attendance, the faculty maintained the full agenda to ensure the session remained productive and professional.

Key points discussed included:

- **Academic Performance:** A detailed review of the student's internal assessment, practical skills, and theory attendance.
- **Departmental Infrastructure:** The parent was briefed on the laboratory facilities and the learning environment in the M.Sc. Classroom No. 1.
- **One-on-One Interaction:** Because of the singular attendance, the parent received an exclusive, in-depth consultation with all subject teachers, allowing for a personalised discussion regarding the student's career goals and challenges.

The attending parent expressed appreciation for the dedicated time provided by the entire faculty. The faculty noted that while the personalised attention was beneficial for the individual, further strategies may be required to improve parent participation for future sessions.

The meeting concluded with a vote of thanks. Despite the low parental turnout, the Department of Chemistry demonstrated its commitment to student success by conducting a comprehensive session for the stakeholders present.
